Summary

Front-End Developer with a passion for crafting seamless and visually appealing user experiences. Leveraging a strong foundation in HTML, CSS, and JavaScript, I bring a keen eye for design and a commitment to staying at the forefront of emerging web technologies. Proven track record of translating complex design concepts into clean, efficient, and responsive code. Adept at collaborating with cross-functional teams to deliver high-quality projects on time and within scope. Eager to contribute technical expertise and a drive for excellence to the dynamic world of web development

Experience

PANATECH | kigali city, kigali
Front End Developer | 03/2022 - 04/2023
As a Front-End Developer at PANATECH, I played a pivotal role in shaping the digital presence of our products and services. My responsibilities went beyond mere code implementation; they involved curating engaging user interfaces and ensuring a seamless and visually appealing experience for our clients

Key Responsibilities:

1. Collaborated with UX/UI designers to transform design concepts into interactive and user-friendly interfaces.
   Implemented responsive web design principles to ensure optimal viewing experiences across various devices.
2. Stayed abreast of the latest front-end technologies and trends, incorporating innovative solutions to enhance our web applications.
   Explored and integrated emerging tools and frameworks to optimize development processes.
3. Worked closely with back-end developers to integrate front-end components with server-side logic, ensuring seamless data flow and application functionality.
   Engaged in effective communication with designers, product managers, and other stakeholders to align development goals with business objectives.
4. Conducted thorough performance testing and implemented optimization techniques to enhance the speed and responsiveness of web applications.
   Identified and addressed bottlenecks in collaboration with the development and quality assurance teams.
5. Maintained high standards of code quality, readability, and organization.
   Created and updated comprehensive documentation for developed features and functionalities.
6. Participated actively in Agile development cycles, contributing to sprint planning, reviews, and retrospectives.
   Adapted quickly to changing requirements and provided timely feedback on project progress.
7. Investigated and resolved cross-browser and cross-device compatibility issues.
   Conducted thorough debugging to identify and address issues promptly, ensuring a smooth user

Skills

HTML5, CSS3, JavaScript, React, JQuery, AngularJS, vue js
